

CON-222

GETTING SOUND IN

Supportal How-To Guide CON-222

GETTING SOUND IN CON-222

Step 1

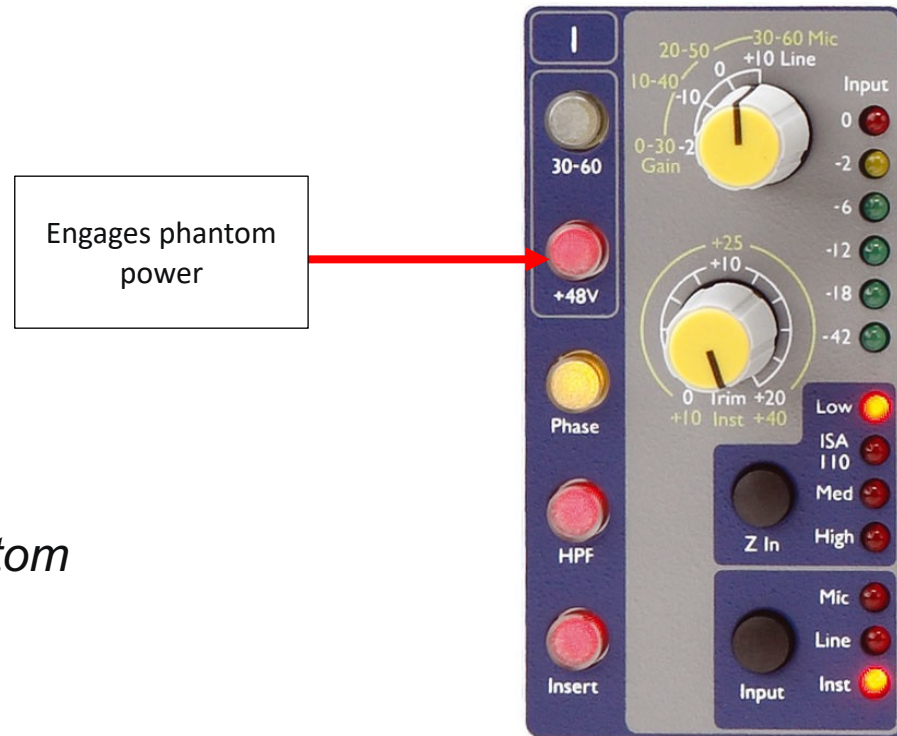

- Connect your microphone to the XLR break out box in room CON-223.
- *Note: Only channels 1-8 active.*

GETTING SOUND IN CON-222

Step 2 Optional (*only required for phantom powered microphones*):

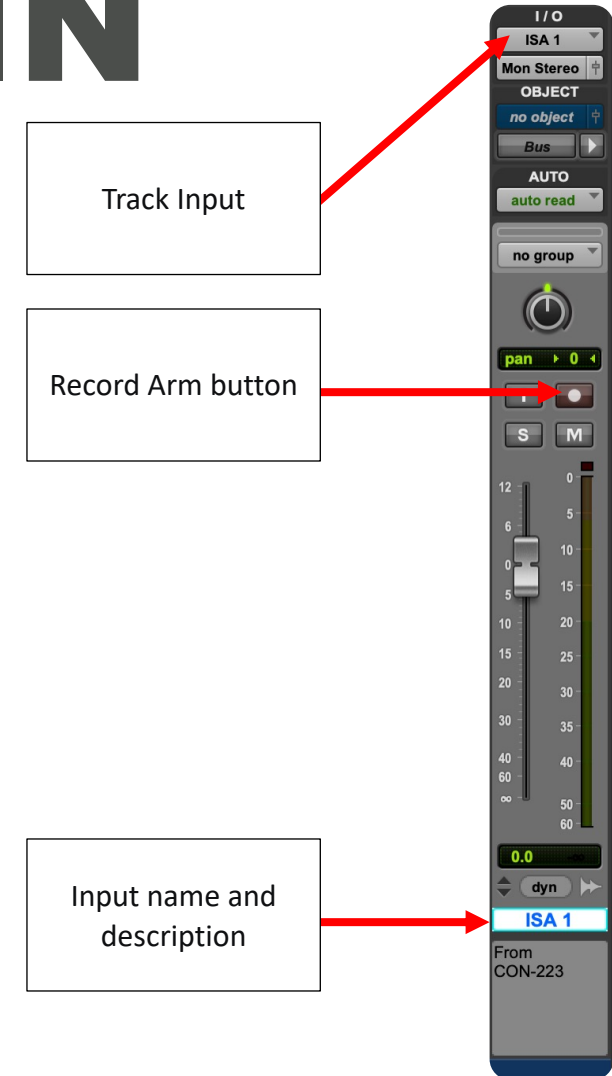

- Press the +48V button on the required channel.
- *Tip: If you are unsure if the microphone requires phantom power, please ask a staff member for assistance.*
